# Durability/Scaling

Concrete Pavement for Local Agencies Seminar

---

April 25, 2025

# Why do we care about durability?

- Long Pavement Life
- Reduced Life-Cycle Cost

# How can we add durability?

- Use of high-performance mixes
- Reduced cement contents
- Use of supplementals
- Addition of admixtures

# Materials Change...

- Type I/II
- Type IL

# What failures are out there?

- Mortar lifting
- Popouts
- Scaling

# Why?

- High water/cement ratio
- Soft surfaces (unhydrated cement)

# What can we do?

- Use of HP mixtures
- Monitor Evaporation Rates
- Ensure ADEQUATE/TIMELY curing
- Consider the use of admixtures

**verdantas**

# Thank You
